

Please do not make any changes to Wisconsin's no call list. Consumers have a right to privacy, and I feel that my privacy is disturbed whenever a solicitor contacts me at my home without my prior permission. If I want to buy something, I will initiate the purchase - I don't need salespeople making suggestions to me. Please keep the list the way it is. Being on this list has improved my ability to relax and have peace of mind. I am a social worker and deal with people all day at work. it is wonderful for me to be at home in the evening and not be bothered by strangers.
